MR. FARMER AND LIVE STOCK GROWER, THE LUBBOCK SUDAN GRASS SEED ASSOCIATION

Is calling to you to quit buying feed and buy Sudan grass seed. The Lubbock Sudan grass seed association was organized last year and is composed of Lubbock county farmers who are producers of pure Sudan grass seed. Every crop handled by this association was inspected in the field before the crops were harvested, by a committee of five men. Mr. V. L. Cory, superintendent of Lubbock station No. 8, a state experiment station, is chairman of said committee. All crops found to be poisoned by obnoxious pests and weeds were condemned and not handled by this association. Mr. Farmer, do not be misled by the "inspection certificate." You have no way in the world to connect the seed with the certificate offered. Sudan grass is a big hay producer as a follow-crop after harvesting the wheat and oats. We will furnish you pure, reseeded, well-matured, officially inspected Sudan grass seed at forty cents per pound delivered. We will ship you seed that will please you and produce satisfactory results. Free booklet on request, "The Story of Sudan Grass."

Odd Bits of News

Lancaster, Mo.—J. Kelly Wright, lecturer for the state board of agriculture was here last week inspecting the elephant farm of William P. Hall, (Diamond Bill). Although not generally known, Hall has the only elephant market on this continent, and since the war, the largest in either Europe or America. He controls the elephant trade of this hemisphere.

Des Moines, Ia.—In bankruptcy proceedings here it came out that a Miss Dottie Morgan, a former resident, had for a loan of \$10, pawned her body to Moses Levich, to be delivered to him after death. The woman moved to Denver and Levich has asked the court if the pledge can be counted as an asset.

Oakland, Cal.—Alex Jacobi and his daughter Grace were motoring on a boulevard last week when a bee stung Jacobi on the face. The surprise and pain caused Jacobi to lose control of the car, which overturned and fatally injured his daughter.

Columbia, S. C.—Miss Clyde Yarborough has been awarded \$3,000 damages for the loss of three inches of skin from her rosy cheek. She was thrown from a street car and sued for \$10,000 damages.

Brooklyn, N. Y.—Caroline Klink, only 17, of a respectable family, collected \$2,375 in 30 days from friends for whom she promised to get jobs in the customs service. Her own father paid \$50. She had no means of making good and she is now doing 30 days at Blackwell's Island.

Yonkers, N. Y.—Peto, a monkey, owned by Mrs. Libbie Dixon, saved her and her guests from death by fire when he dragged her down from her room on the top floor to the basement where a brisk blaze was burning.

Babe Killed at Hurley

A year and a half old Mexican babe was run over by an ore train at Hurley Tuesday evening and the little one's body was cut squarely in two. The parents of the babe lived near the track and the little one, while playing, ran across the track in front of the train.

Overcomes all Handicaps

Prof. E. F. Snow of Webster City, who has been reelected county superintendent of schools in Hamilton county, is one of the most remarkable school men in Iowa. He has no hands and yet is probably the best penman in this part of the state. Professor Snow lost his hands in a railway accident when he was 22 months old. He graduated from the Webster City high school, and finished at Drake university. He has taught school all his life and has already served two terms in the county superintendent's office. Besides being a really expert penman, Professor Snow shaves himself, cuts without assistance, dresses himself, laces his shoes, and even drives an automobile. He has been unusually successful as a school teacher and has made a fine record as county superintendent.

You will find a first class blacksmith and expert horseshoer at the O. K. shop.

California Expositions

Here's the chance you've been waiting for—an opportunity to visit California at slight expense.

It's doubly interesting this year, because of the great world's fair at San Francisco and San Diego.

The Santa Fe is the only line to both Expositions. On the way Grand Canyon of Arizona and Petrified Forest. Let me send you our illustrated "convenient guide book and Exposition folders and tell you about the cheap fares on the Santa Fe.

STATION PARK IS TO BE A BOWER OF LOVELINESS

The station park is receiving a great deal of care from the Southern Pacific Company, and the citizens of Deming are grateful for the green grass, the trees, and the flowers. A great deal remains to be done, but meanwhile the many fine trees are growing and the work is being pushed. The grass is not in very good condition as yet, because of the change of plan which resulted in the tearing up of a great deal of sod. The flower beds are being cared for under the direction of Dr. S. D. Swope, who promises a good showing of color when the season advances.

Doctors H. W. and Blanch Armstrong, osteopathic physicians, graduates of the American School of Osteopathy at Kirksville, Mo., have opened offices at 309 South Copper avenue. Dr. Blanch Armstrong has made a specialty of women's diseases and her practice will be limited to the same. Office hours 9 a. m. to 12 and 2 to 5 p. m., and by appointment. Phone 109—adv. 37p

Important Notice

After May 15 next this paper will discontinue the publication of all free special notices, a rule which, in a measure, affects such religious, fraternal, patriotic and other kindred advertisements as we have hitherto run without charge.

While at first this may seem extraordinary, it is not. On the contrary it is sustained by sound policy and established precedent. One has only to glance over the columns of the average country weekly to appreciate the amount of space and labor donated without price to enterprises and organizations having no higher claim upon charity than commercial advertisers who pay regularly for the same service.

Before determining upon this course we interviewed a number of reputable newspapermen, asking them, first, "Do you charge invariably for church, school, lodge and patriotic order and like notices?" To which all save one replied "yes." The one who does not, tells us that where he does not charge outright he "requires a display ad to accompany the notice," which to our mind is doubly objectionable, in that it smacks of the bonus, premium, or rake off. We don't admire the idea, for at best, it must cost the beneficiary as much or more than a frank, open deal.

Now The Deming Graphic stands ready always to cooperate actively in the furtherance of every worthy cause, and believes it can best accomplish this by placing at the disposal of our churches, lodges and other like organizations a column, or more if necessary, in which each may insert a standing notice of its time and place of service or meetings. Every church, lodge, chapter and other fraternal or benevolent organization in Luna county which wishes to do so will be accorded reasonable space in which to publish a standing notice of its regular services or meetings without any charge whatever.

They will be charged only for notices of special services, or meetings, and special notices concerning regular services or meetings.

By this, we hope and believe we are treating both them and ourselves fairly. We know of no other paper that offers as much; we feel certain none of them will or can do more. Every organization above mentioned is cordially invited to avail itself of the privilege thus offered to enter the free column, and we assure them of a hearty welcome to the space.

Civil War Horse Still Survives

The oldest horse that served the country in the War of the Rebellion is still alive, at the age of 53 years, at Horseheads, N. Y. It is owned by P. A. McIntosh who is also a veteran of the same war. To prove his assertion Mr. McIntosh shows the government brand on the animal's hip, which reads "I. C., 1865." Horse and man served in the same regiment. Although bent with age, his hair turning gray and his teeth becoming worn, the old warhorse is still able to eat twelve quarts of oats and take his master to town several times a week. It is estimated the animal is at least 53 years old. Farmers say the average life of a horse is about 15 years.
